Please Note

To simplify your statement, transactions appear as a single settled amount rather than multiple entries for authorizations, reversals, and settlements. Only finalized transactions will be displayed, meaning pending authorizations won't appear until they are fully processed. For example, if you authorize \$500 at a gas station but the actual charge is \$50, your statement will only show the final \$50 in the month it is settled. This update makes your statement clearer and easier to track!
